About New America

We are dedicated to renewing the promise of America by continuing the quest to realize our nation's highest ideals, honestly confronting the challenges caused by rapid technological and social change, and seizing the opportunities those changes create.

Our Community — Since 1999, New America has nurtured a new generation of policy experts and public intellectuals. Today we are a community of innovative problem-solvers, combining our core expertise in researching, reporting and analysis with new areas of coding, data science, and human-centered design to experiment and innovate nationally and globally. We prize our intellectual and ideological independence and our diversity, seeking to do our best work and to reflect the America we are becoming.
