Vision
Users effectively navigate VPNs and web privacy

Mission
To offer users a really honest, committed and helpful tool when navigating VPNs and web privacy

Values
Honesty: Our reviews are not based on advertising; they are based on real experiences. Sounds like a strange concept? Believe it or not, honesty is contagious. One honest review leads to another, making vpnMentor a truly powerful transparency tool for the internet.

Commitment: We are marathon runners. Which means we always go the extra mile. We are committed to being on your side by giving you full, detailed advice on anything and everything VPN related.
Helpfulness: We work diligently to write easy-to-read guides on hard-to-understand subjects. That is what we are here for. We then translate them into 29 languages, so people in Spain, France and Indonesia can equally enjoy the same high quality content as people in the USA.
